

Study on nucleosides, nucleotides and nucleic acids

Presenting author's first and last name,^{a,*} 2nd Author,^b 3rd Author^{a,*}

^a Department of Chemistry, University of Natural Science, Address, Country

^b Department of Biology, University of Natural Science, Address, Country

International Round Table (IRT) on Nucleosides, Nucleotides and Nucleic Acids is organized by IS3NA and the most prestigious conference which focuses on oligonucleotides, nucleic acids, and their components. The conferences have been held every two years since 1974, and the 25th IRT (IRT2024) will be taken place at Katsushika Campus of Tokyo University of Science in Tokyo, Japan. In the meeting, the researchers in the field of chemistry, biology, and medicine of oligonucleotides and nucleic acids will gather and discuss about the cutting-edge science. The world's leading researchers will be invited and make presentations about their valuable achievement. The meeting will provide the constructive opportunity to share the discoveries and knowledge relating to oligonucleotides and nucleic acids.

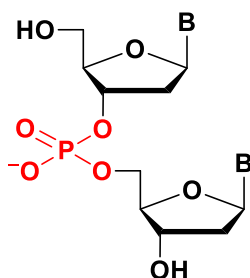

Figure. Structure of dinucleoside phosphate.

The deadline for abstract submission is May 15. Please submit the template via e-mail to "irt2024yrs@gmail.com" with the subject "YRS2024 abstract".

Instructions

[Please delete before conversion to pdf and submission]

One page limit

Please do not change the fonts (**Calibri**), their size (**header 16, text 12**) and the page formatting (**Margins = 1"**)

Underline the presenting author's name and asterisk (*) the corresponding author's name. Please fill the e-mail address of the corresponding author in the end of the page.

To maintain formatting, please convert to pdf before submission and send the pdf file. **File size should be 2 mega bytes maximum.**
