

The young researcher's symposium (YRS) of IRT2024 will be held on September 7, 2024, after the main symposium. Young researchers can make an oral presentation about their research and have a detailed discussion. YRS will be a precious opportunity for young researchers to encounter groundbreaking research and build a global network. Applications for oral presentations (approx. 10 minutes) are open to doctoral students, postdocs, and researchers (within 7 years of receiving their PhD degree). Researchers applying to present a poster at the main symposium may also submit an abstract to the YRS. Those who are selected as oral speakers at the main symposium will not be eligible for oral presentations at the YRS. Please make an abstract using the template and send it via e-mail to "irt2024yrs@gmail.com" with the subject "YRS2024 abstract". The maximum number of oral presenters is approximately 25, and the deadline of abstract submission is May 15. The committee will review the abstracts and make a decision on oral speakers. The authors will be notified of the review results by early June. Also, do not forget to register via the IRT 2024 registration form.

Additionally, anyone interested in the chemistry, biology, and pharmaceutical applications of nucleic acids is welcome to join the YRS audience.

The participation fee is 5000JPY (approximately 33USD). The number of participants will be limited to a maximum of about 150 people.

How to register:

If you would like to give an oral presentation, please make an abstract using the template and submit it as a PDF file via e-mail to "irt2024yrs@gmail.com" with the subject "YRS2024 abstract".

Do not forget to register via the IRT 2024 registration form.

If you would like to participate without presenting, just register via the IRT 2024 registration form.
