- 3 . The number of participants
Round-Table Discussion : Sat., Feb. 17 / 118 people
Presentation of Examples : Sun., Feb. 18 / 113 people
Care-facility Tour : " / 23 people
- 4 . Work Contents For the realization of a society of health and longevity, while aiming at the society you can prevent dementia or live even suffering from dementia, experts from both at home and abroad who have been engaged in the clinical practice for dementia gathered to deepen discussions on the current situation in the clinical practice for dementia and measures regarding the Mild Cognitive Impairment.
Also as “the place to learn the most-advanced prevention and care for dementia in Japan” we disseminated information from Kaga city, and through a two-day program on prevention and care, we could deliver the latest information on dementia succinctly to those who were interested in dementia.
Dementia has a lot of medically unexplained aspects, but we confirmed the importance of reflecting results of empirical studies and new measures for prevention of dementia in the discussion of the international meeting.
- 5 . Others Program
